Seminary Control the Great Bone of Contention.

OTHER MATTERS SUBORDINATED

The Question as to Whether the General Assembly Shall Have Absolute Authority Over Presbyteri in Educational Institutions Causes Extended Arguments.

Pirristure, May 20.-Everything was pushed aside today in the assembly that free scope might be given to the question of seminary control, and the end is not yet. Nearly all of Saturday was consumed in arguments for and against the report presented by Dr. W. C. Young. This was to the effect that the General Assembly had no right to hold property, but that the election of trustees of the seminaries should be approved or rejected by that body. It is proposed to give the General Assembly the sain power as possessed by the attorney general of any state to inquire whether or not a corporation is complying with the terms of the charter. The arguments were resumed today and nothing else will be considered until it has been decided whether or not the church shall

control the seminaries. A proposition looking to a compromise has been made by some of those who oppose what is now technically known as seminary control. This is that all new seminaries should have their charters contain what the committee desires placed in the old charters. Namely, that the church should have a safeguard thrown about the teaching and the property of the several institutions. Another concession is that specific requests hereafter shall conform to this rule. With those two concessions made the so called liberals think that they

can carry the assembly. Thus far all attempts to limit debate have been voted down overwhelmingly. but word has gone forth that a decison must be reached at 4 o'clock this after-noon. Many, however, doubt the ability of the leaders to put this program through The attitude of the liberals favors postponement in the expectation that if the report of the committee of conference with the seminaries is thoroughly aired it will be weakened and will lose votes every day.

The conservatives, on the contrary, want a decision, quick, sharp and overwhelming. Already the time occupied is so long that comers are reminded of the endless discussions in the Briggs and Smith cases. The result promises to be that the causes of the missionary boards of the church will be pushed aside, and that external questions will usurp a place which does not

belong to them. The Pacific coast is here again with a pressing invitation to the assembly to meet in 1896 in Scattle. Two years ago the meeting place was Portland, Orc., and

at that time the Briggs case was up. Its effect upon the church west of the Rocky mountains was not all that had been anticipated. Now with the burning questions out of the way a more favorable impression is hoped for. Dr. Alexander Alison and Elder W. R. Ballard, from the First Church of Seattle, are engaged in canva-sing opinion and in forming senti ment in favor of their city.

The question is likely to be one of ex-

pense, and it may be necessary for the backers of Scattle to raise a guaranty fund to make it possible to take 60 (commissioners so far and keep them so long. The only other place mentioned is Saratoga, where the assembly met last year, and where the campissioners can be entertained at less expense than anywhere else

The large amount of time already consumed by the seminary discussion seems likely to have a consequence that other matters, such as the treatment of the students of Union seminary, in New York. and of the new mission house on Fifth avenue, New York, will be considered only in the brief intervals between the regular orders of the day.

In some respects it is fortunate for the assembly that it has a moderator of such great executive ability as Dr. Booth. Thus far he has won golden opinions from many who voted against him.

Churches of all sorts and varieties opened their doors and pulpits yesterday, and it took a long column of small type to set forth all of the appointments made and accepted by the divines of the Presbyterian General Assembly. The greatest interest, however, was felt in the sermon of the moderator, Dr. R. R. Booth, of New York, who preached, as is customary, in the church where the assembly sits. He was greeted by a large audience, which contained a large proportion of assembly commissioners. Dr. Booth was attended in the pulpit by Dr. William McEwin, the pastor of the church, and by Dr. W. E.

Moore, permanent clerk of the assembly. Dr. Booth's subject was the vicarious and atoning death of Christ, and the sermon was clear and powerful. If any of the audience hoped for any utterances on questions in hot debate they were disappointed, as the only thing that could be tortured into such an interpretation was the emphatic statement that "as against infidelity, orthodoxy now has its innings."

Washington's Distinguished Invalids.

Washington, May 20.-Secretary of State Gresham had a quiet, restful day, and his condition is improved. The improvement in Representative Hitt's condition, while slow and tedious, is steady. There has been no change in the condition of Representative Cogswell during the last forty-eight hours. He appears to be just about holding his own. Miss Mary A. Dodge (Gail Hamilton) is in a very precarious condition. General Swaim was so much improved yesterday as to be able to go out for a drive. Brigadier General Casey is also much better, and for the first time since his illness was yesterday able to go out. Mrs. Casey is ill with pneuPENNSYLVANIA LEGISLATURE.

The Quay County Bill May Pass the House This Week.

HARRISBURG, May 20.—There is nothing left for the lawmakers to do but work if they expect to get away by June 6. The house calendar is crowded with bills, many of which will be dropped to save time and hasten the final adjournment. The senate continues to move along in that leisurely manner which has characterized its proceedings all through the session. The calendar is clear of senate bills and crowded with house measures on final passage. The latter number about 200, and will have to be disposed of before the representatives will agree to adjourn.

The greatest interest centres in the house proceedings. Aside from the affair of to-night, when members will be brought up for contempt, there will be much business of general importance to transact. To-morrow will be the busiest day, the first order being the consideration, on third reading, of the congressional, legislative and semitorial apportionment bills. Judging from the manimity with which these measures passed second reading they will pass the final stage by a comfortable majority. The representatives from counties which lose in representation by the apportionment will oppose the measure. They are however, in the minority, and their only hope is in the senate or a conference committee.

Should there be a full house on Wednesday, when the order of business will be senate bills on third reading, the Quay county bill will be called up for final passage. The borners of the new county have more than enough pledges to assure the passage of the bill. Their only trouble has been to get its friends here at one

Bloody R. volt in Mexico.

Et Paso, Tex., May 2).-Information has been recared here of a bloody local revolt which broke out in a settlement between the town of Gaadaloupe, Calvo and Varvagama, in the state of Chihushua. Mexico, a few days ago. The trouble between the manual light in the light gan when the natives living in the district attacked a surveying party under Captain Morrison, an American, and killed twenty of the party. The affair was re-ported to the commander of the Mexican troops at Parral, who immediately started a detachment of 19; men to the scene. The troops were assaulted by the natives and retreated, leaving half of their dead wounded on the battle ground. The appointment of the American, Morrison, to survey the government land which is now occupied by native farmers caused the trouble. The natives number about 2.09 men. Troops have been ordered from Chihunhua to quell the revolt. Morrison es-

The World's Iron Ore Production. WASHINGTON, May 20 -Mr. John Birkinbine, the iron ore expert of Philadelphia. has prepared for the division of mineral resources of the United States geological survey an exhaustive report on the iron

ore resources of the world, in which the production of the world of iron ore in 1803 s estimated at about 52,500,000 long tons. The total production of iron ore in this country in 1894 was 11,879,679 long tons of 2,240 pounds, as compared with 11,587,629 long tons in 1893. This is an increase of about 21; per cent. This production is only 73 per cent, of the maximum production of the United States, namely 16,296 666 long tons, which was the output in 1893.

Trolley Cars Collide.

BROOKLYN, May 20 -A serious collision between troiley cars occurred yesterday afternoon by which several passengerwere seriously, if not farally, injured, and a number of others badly bruised. At Second avenue and Eighty-sixth street, Bensonhurst, two cars collided. Of the hundreds or more passengers on the two cars the great majority received bruises of a more or less painful nature, and a veritable panic ensued. The motormen and conductors were arrested.

NUGGETS OF NEWS.

The cold snap of Saturday night in Minnesota was the severestin many years, and much damage will result.

The revenue cutter Search rescued six Baltimore men from drowning in Chesa peake bay. Their boat had capsized. A cyclone struck near Luling, Tex., unroofing several houses and killing a small

negro boy. Crops were blown out of the ground. In a fire at Birmingham, Ala, a board-

ing house was destroyed, and it is believed that four men perished. One charred body was found. Charles Leer, 18 years old, was probably fatally shot at Garret Park, Md., by an

attache of a circus train on which he had

stolen a ride. Secretary Hoke Smith visited Athens. Ga., yesterday, to become acquainted with the latest addition to his family, a baby girl born last Friday evening.

Jerido Shivers, who with two other ne groes carried off three white girls in Coffee county., Ala., a month ago, was captured Saturday night. A rope with a sinker attached was tied to his neck, and he was thrown into Peariver and drowned

ANSWERING AI'CORKLE

The Commander of the Virginia Troops at Pocahontas

SAYS HIS PICKETS WERE FIRED ON.

He Declares That on Three Different Nights Thirty-Eight Shots Were Fired, and Expresses the Opinion That the Presence of the Military Alone Prevented Bloodshed.

POCAHONTAS, Va., May 20.-Yesterday the miners held two meetings-in West Virginia, at Simons, and near Pocahontas in the evening. The meetings were not so well attended and the colored element prevailed. The course of Governor O'Ferrall was condemned, while Governor McCorkle was applauded as being consistent and patriotic. The Italians here still refuse to work. The Southwest Coal company claim to have 500 men on duty.

The following statement has been given to the Associated Press reporter here by Major Simons, commander of the Virginia troops, in reply to Governor McCorkle's statement:

"Each of my outposts are under the charge of a commissioned officer, who is required to nender a written report, when relieved, of the occurrences during the previous twenty-four hours. On the night of the 8th the officer in command of Coal Branch Station reported that his sentinel was fired on six times. On the night of the 9th they were fired on fifteen times, and on the night of the 17th seventeen shots were fired, and two of the sentinels narrowly escaped being hit.

"In the two last instances I was within hearing of the shots, which were fired from the adjacent hills toward the West Virginia side. The officers under my command are efficient, reliable and intelli-geet, and I do not believe they would ren-

der a sensational report officially.
"We have not interfered with West Virginia men in any way except to prevent their interference with the men who were disposed to work in the Virginia mines. We are here for the maintenance of law and the preservation of order and the protection of citizens of Virginia engaged in their legitimate pursuits, and not to mo

lest any citizen of West Virginia.

From all the information I have been able to gather I am of the opinion that but for the presence of the military the Virginia miners would not have been permilited to continue operations, and that there may have been bloodshed and destruction of property."

China's Public Debt.

WASHINGTON, May 20.—A careful compilation of the figures of the Chinese national debt shows that at the present moment it aggregates only about \$10,000,000. a sum in significant in view of the great resources of the nation. The first Chinese loan was emitted in 1875, and since that date there have been various issues, mostly for small amounts. The rate of interest on these loans varies considerably, probably owing to the different character of the security offered, but the highest figure is 10 per cent., and it may be significant that the last, made during the pendency of war last year, was placed as low as per cent. Most of these loans were paid to the Chinese in silver, but in only two instances is it stipulated that they shall be repaid in the same metal and the balance must be refunded in gold. It is believed here that the Chinese will have no difficulty in raising the entire amount of the indemnity to be paid Japan.

Trolley Car Fell with a Bridge.

Norristown, Pa., May 20.-A bridge on the Philadelphia and Reading pike crossing the Trenton cut off railroad in Plymouth township, fell Saturday afternoon, carrying down with it summer car No. 16 of the Schuylkill Valley Traction company, crossing at the time. The bridge, a temporary wooden structure, was seventy two feet long and thirty feet high. The car contained the fatal number thirteen persons, but owing to some fortunate circumstance no one was killed, and only five were seriously injured.

Burglars Held for Trial.

LANCASTER, Pa., May 20 -Two robbers, George Williams and John Green, who tied the family of Abous C. Mylin, near Willow street, last week and robbed the premises, were given a hearing by Alderman Halbach and committed for trial on various charges. Williams, who claimed to be from Philadelphia, was identified as Daniel Landis, a former back driver of this city. The men will probably be tried at the June term.

An Old Couple Chloroformed and Robbed. Johnstown, Pa., May 20 - Word was received in this city of a daring robbery which took place at the residence of Hiram Hoffman, near Davidsville, Somerset county. While Mr. and Mrs. Hoffman, both of whom are advanced in years, were sleeping, two men entered the house by raising the window, and after chloroforming the couple ransacked the house and succeeded in obtaining about \$600 in money and securities.

SUING HER TITLED LOVER.

Miss Sutherland Demands Damages for

LONDON, May 20.-If the case of Miss "Birdie" Sutherland, the chorus girl at the Gaiety theater, against the Hon. Dud ley Churchill Marjoribanks, eldest son of Baron Tweedmouth, for breach of promise, ever comes into court it will be the most sensational trial since Miss Fortes cue, the actress, won £10,000 from Lord Garmoyle on a similar charge. Miss Suth erland is very handsome, being nearly six feet tall and only is years old. Her real name is Annie Louise Watkins. She first met the Hon. Dudley Marjoribanks at the Prince of Wales club. It was a case of love at first sight. He proposed and was

When his parents learned of it they were greatly disturbed. However, when it was discovered that Miss Sutherland was of unimpenchable character Lore Tweedmouth said that if the couple would consent not to see each other for a year and if at the end of the year both were of the same mind, he would not place an ob-

stacle in the way of the marriage.

But Mr. Marjoribanks still haunted the Gaiety theater. One night Lord Tweed mouth found him there and persuaded Lim to leave, and the father and son drovaway together. Then further efforts wer. made to break the match. It is alleged that Lord Tweedmouth offered to send Miss Sutherland to the continent to study music under the best masters, but she refused the proposal. Then Mr. Marjorebanks went to Canada with his mother on a visit to the Earl of Aberdeen, governor general of Canada, whose wife, Lady Aberdeen, is a sister of Lord Tweedmouth. The young man remained in Canada and the match was broken off. Miss Sutherland then brought suit for breach of promise.

ANOTHER BATTLE IN CUBA.

Conflicting Reports as to the Loss, but II Is Doubt'ess Heavy.

TAMPA. Fig., May 2).—The Plant steam ship from Cuba brings reports of an engageanent on the 12th near Jovito. The Spanish papers say that 2,000 Cubans attacked the city. The Cubans are said to have opened a general fire from three sides on the Spannards, who retreated, sending eighty men to another station for reinforcements. When these arrived the Cubans withdrew. The Cuban loss is placed at 709. The Spanish lost twelve soldiers, one priest. Dr. Ruiz, the physi-cian, and Lieutenant Colonel Joaquin

Cubans discredit the story, saying that Major Robles second chief of the Spanish column, has asked to be decorated with the Cross of San Fernando. To deserve this decoration, by army laws, one must fight a minst triple his force, sustain the battle for a number of bours and lose at least two-thirds his force in killed and wounded. Ther fore the Spanish loss, according to Robles' claim, most necessarily be greater.

A passenger arriving states that the Spanish troops are sick and dying. Campos has called for more troops. Campos saw Havana merchants regarding the Issue of paper money similar to the last revolution issue, but the merchants refused,

To Take the Pasteur Treatment. NEW YORK, May 20 -Dr. Gibier received two patients yesterday from West Virginia at the Pasteur institute. They are W. L. McLain, 18 years old, and his brother Ernest, 10 years old. The boys are the sons of W. L. McLain, a farmer of Rock Cave, W. Va., who were bitten on April I while at work on their father's farm. A big dog belonging to a neighbor came into the field where the boys were. The younger boy snapped his fingers at the dog. This seemed to enrage the animal, and jumping at Ernest McL un it bit him in both hands. The either brother ran to Ernest's assistance and was also attacked by the dog. A cousin of the Melatins who was at work in an adjoining field went to the rescue. He drove the dog away, but not before he received a bite on one of his fingers. The cousin could not be prevailed upon to be treated by the Pasteur method.

He Was Born in the White House. WASHINGTON, May 20.-The only male person ever born in the White House, Robert Tyler Jones, a grandson of President Tyler, is dead in this city. He was the son of Mary Tyler Jones, the eldest and favorite daughter of the president, He served in the Confederate army as a captain and was a brave and faithful soldier. In later years he was employed in the treasury department. Since his re tirement from that position he has had practically no employment.

Bold Burglary at Atlantic.

ATLANTIC City, May 20 .- A burglar entered the residence of Mrs. Egbert Ward, No. 27 Illinots avenue, yesterday, and after threatening to kill Mrs. Ward if she made an outcry, demanded money. She gave him all there was in a bureau drawer, and as he retreated gave an alarm. The police responded, but the thief made his escape. There is no clew.

French Defeat the Hovas,

LONDON, May 20.—A dispatch from Mojanga, Madagascar, says: The first battalion of the Colonial regiment had a sharp fight with a large body of Hovas near Marovoay. The Hovas fled at the point of the bayonet, leaving sixty dead and wounded. There were thirteen of the French wounded. The French then occupied the Hova camp.

THE OPENING OF CHINA.

Japanese Merchants Open a Vigorous Commercial Campaign.

TROUBLOUS TIMES IN COREA.

Greatest Severity Used in Suppressing the Rebellion of the Tong Haks, Who Waged Cruel and Reientless Warfare-Corea Wanted Indomnity from China.

WASHINGTON, May 20.—The latest budgets of mail received at the Japanese, Chinese and Corean legations at Washington give much space as to the changed conditions resulting from the war. Lord Li. son of Li Tung Chang, is expected to be the new Chinese minister to Japan. The peace settlement will soon be followed by a restoration of diplomatic relations. Mr. Otori, now a member of the Japanese privy council, is mentioned as a probable minister to China. He was formerly minister to China and knows the country thoroughly.

In an interview Mr. Otori tells the Japanese that having acquired commercial access to Chinait will need much that to carry on trade with the Chinese. He says British merchants have already pretty well occupied southern china, which is the best field, so that the Japanese had better turn their attention to the northern country, where the markets are comparatively untouched, although they supply millions of natives. He gives all the details of Chinese trade, showing among other things that the natives never pay eash for goods. They are scrupulously honest, and have three pay days, on May 5, July 16 and Dec. 30. The talk in Japan shows that the conquests of the armies are to be followed by an equally vigorous commer-

cial campaign by the merchants. Corea has passed through troublous times of late. The foreign ministers feared an outbreak, and armed guards were stationed at all the legations. There were thirty United States marines with United States Minister Sill at Seoul. Quiet has been restored, and the armed guards have been withdrawn. The trouble followed the rebellion of the Tong Haks. In suppressing them the government used great severity. A traveler that lately returned from the disturbed district reports that wherever he went he saw houses burned down, corpses of people neardered, and towns desolated and abandoned. This brought on mob agitation which threatand slout and led to the armed defense of the legations. The authorities at Seoul are now trying the ringleaders, and there

is a liability that they will be decapity ted. The influence which Japan is now exerting in the modernizing of Corea is indicated by the formation of a court council to look after those suffering from the recent outbreak. On this council of six members there are three Coreans and three

Japanese.

The Corean government recently devised a unique means of raising much needed revenue. Observing that Japan was making heavy demands on China, and that China was not in condition to resist, the acting minister of public works of Corea suggested to Count Inoy, the Japanese envoy, that Corea should also put in a claim for damages against China. He argued that China's arbitrary course had brought on the war, and Corea had suffered many calamities therefrom. Ho urged also that he should personally undertake the duty of negotiating and of meeting Li Hung Chang at Shimonoseki, where the Japan-China terms were then being arranged. Count Inoy discouraged

the project, and it was not executed. The loan of three million yen which Japan made to Corea in order to put the country on its feet, has begun to be paid. Half a million was turned over the first of last month, and the remaining two and a half million is subject to call by Corea.

The Japanese are looking over the possessions they have recently acquired. A large force of expert surveyors are at work in and around Port Arthur, with the purpose of finishing the survey by July, although these plans may be altered now that the permanent possession of Port Arthur has been given up as a result of the protest of the European powers. The incestigations as to the value of the Island of Pescadores has not been encouraging. formosa gives better prospects, and al-

eady capital is being invested to put in arge sugar refineries, which will, it is said, add a new element to the world's sugar production.

The Rush for Western Homes. G) runil, O T, May 21.—The publica-

tion of the president's proclamation opening the Kick (pool Indian country to settlement created great excitement in this section. Everything from a horse to a his evele is being got in readiness for the coming race for farms, which bids fair to equal the great rush to the Cherokeestrip Next Thursday at noon 132,000 acres will be thrown open to settlement. Eightythree thousand acres have been reserved for school land purposes, but Governor Renfrew gave out word today that he will immediately throw open the school lands. This fact will help hundreds of people who will fail to get in on the ground floor in Thursday's race. It is estimated that by Wednesday night 75,000 people will be line. ing the border of the Kickapoo country.

Sunday Evening Murder in Baltimore.

BALTMORE, May 20,-Frank Harris (colored), aged 26, was shot dead last evening by Robert Lear (white), in the yard of the latter. Harris and some carousing companions attempted to force an entrance into the house of Lear. Members of his family and friends resisted the colored man. A free fight followed, and Harris, the leader of his side, was killed, Lear and several of the fighters, have been arrested.

A STOLEN SECRET.

How Mnister Jewell Learned to Make Russia Leather.

Jewell, like all men brought up to learn a trade, and who afterward gained prominence in affairs, made now and then uncorscious revelations of his early training. During one of the campaigns in which he was engaged he found himself at a country hotel where the table was bounteous, but the rooms few and small. It was necessary in order that the whole party might be housed for each bed to be occupied by two persons. The governor's roommate was a young politician, who could not hide his surprise when the governor just before retiring rolled the sleeves of his night shirt even as far up as his shoulders, and then bathed his arms in cold water

"You wonder why I do this," said the governor. "Well, I couldn't sleep unless I did. When I was a youngster learning the tanners' trade, I used to have my arms in the vats all day long, and at night my skin would smart as though I had been stung by nettles. I could not bear to have any cloth touch them. So I got the habit of rolling my shirt sleeves as far as I could, and thus I have slept ever since.'

When Jewell was minister to Russia, he played a Yankee trick upon the Russians, the benefits of which we are reaping even to this day in this country. Like every other American tanner, he had long wanted to know the secret of the process of manufacturing Russian leather. He had experimented with a few dollars himself, only to learn that the secret was not to be discovered.

When at the court of St. Petersburg, he professed great interest in Russian industries and was shown through many of the manufacturies there. By and by there came an opportunity to go through a factory where Russia leather was manufactured. Jewell was all smiles and courtesies and seemed profoundly interested in those things which really did not interest him and wholly blind to the very things he went to that place to see. But he was not so blind as they thought. When he came out of that factory, he had discovered, as he believed, the process, and he brought the discovery back to this country with him, so that by and by the United States began to turn out a very good article of leather resembling the Russian product.-Philadelphia Press.

A HISTORICAL MYTH.

The Story of General Jackson's Cotton Bale Breastworks a Pleasing Fiction.

There are few of the schoolboys of several generations preceding the present who do not remember being taught that General Jackson won the battle of New Orleans by throwing up a breast-work of cotton bales and meeting the British assault behind them.

A dramatic account of this was in all the school histories and several others, and the novelty of the affair appealed vividly to the imagination. The cold facts of later history prove this all to have been fiction. Henry Adams, in his history of Madison's administration, describes the battle of New Orleans and mentions no such feature. McMaster, in his latest volume, refers to the story knocked out at once.

Jackson's line of breastworks was of earth irregularly thrown up and of varying height along its length. The trained sharpshooters of the west did great work as marksmen behind it and so galled the heavily laden British troops that they had no alternative but to be shot or retreat before the American line.

The schoolbook story used to be that the Americans lost six killed and seven wounded. McMaster places the figures of killed and wounded at 70. The British, it seems, were not all repulsed according to the popular story. The right line of the American troops was driven in, and the British left advanced a mile in the rear of Jackson on the way to New Orleans.

He was really flanked by this success, but the terrific slaughter he inflicted upon the British in the center, involving the death of the first and second generals in command, completely dispirited them and induced the return of that wing of their army that was on the way to the city.—Boston Herald.

A HOROLOGICAL WONDER.

The Complicated Time Keeping Oddity kavented by a Russian Pole.

The prize wonder in the shape of a clock is the invention of a Russian Pole named Goldfadon. The inventor is a clockmaker of Warsaw and boasts that he worked over 2,000 days on this time keeping oddity. The clock represents a railway station, with waiting rooms for travelers, telegraph and ticket offices and a very pretty and natural platform, well lighted and having in its center a flower garden and a spouting fountain. There are also signal boxes, lights. switches, water tanks-in fact, everything used in conjunction with a well regulated railway station. There is a dial in the center tower, which shows time at New York, Peking, Warsaw and London. Every quarter of an hour the station begins to show signs of life. First all of the little figures of telegraph operators begin to work their machines, the head automaton going through the form of sending a dispatch to the effect that "the line is clear." Then the door opens, and upon the platform appear the station master and his assistants. Next a long line of little figures file up to the miniature ticket office.

After this the porters appear, carrying luggage, the bell rings, and instantly a miniature train dashes out of a tunnel and halts before the platform of the station house. While the train is waiting a miniature figure tests the wheels and axles with a tiny hammer, another pumps water into the tank of the engine, while a third busies himself stowing away small lumps of coal in the silver plated tender. There is one signal of the bell, whereupon the door of the single coach opens, and the little figures slide in on an almost invisible wire, the opening closing after them. A second tap of the bell is the signal for the wheel tester, waterman and fuel carrier to retire into the station house.

After the third signal the whistle gives two toots, and the train quickly disappears in a tunnel opposite to the one from which it emerged five minutes before. When the train is out of sight, the station master and his assistants leave the platform, the doors close behind them, and they all retire to the other side of the station house, where, at the expiration of 15 minutes, the train again appears, and the passengers file out and seat themselves in the building preparatory to taking another trip around the station house.-St. Louis Republic.

LOPSIDED HENS.

How a Cape Elizabeth Man Produced a Breed of Nonscratchers.

Speaking of hens reminds me of a worthy townsman of ours, J. Fairfield Tuttle, who had a small patch of strawberries so situated that only a fence, and a poor one at that, divided them from a neighbor's henyard, and these same hens bothered our friend very much by getting through the fence and scratching up the strawberry plants.

Our friend tried many ways to rid himself of them, but failed until one day he saw his neighbor in the act of

setting affother hen.

Now, it's necessary for you to know that the hens above mentioned were of what is known as the Shanghai breed and had very long legs. It occurred to our friend Tuttle that he saw a way out of the difficulty. So procuring half a dozen bantam (short legs) eggs he stole over during the night, took out six of the eggs that were under the hen and replaced them with the six bantam.

What was the result? When the chicks were hatched, each one had one short and one long leg, and when they would stand on the short leg and try to scratch with the long one they would only succeed in throwing themselves over. When they would stand on the long log, the short one would not reach the ground by several inches, and so in the matter of scratching they were not in it, so to speak.—Cape Elizabeth Sentinel.

Names of the Centiped.

"The word comped in the mouth of the old sailor, as of the negro, becomes 'santipede' or 'santifee,' but I think Jos Galbraith, a Hibernian ranchman of New Mexico, should be credited with giving it the most remarkable twist from its dictionary pronunciation," said the topographer in a surveying party. "Joe camped alongside us one night on our way to Camp Grant. As two of our men in the morning were shaking a blanket which had been spread next the ground a centiped six inches long ran out from the under side of the blanket up the sheeve and face of one of the two men. The man's whiskers saved his face from the needlelike feet, and he brushed the reptile off to the ground without sustaining injury. The centiped was kined, and the party gathered round to look at it, among then: Joe, eager to air his knowledge.

"'Don't you know what that is?' he said wisely. 'it's a Santa Fe. They say they're pizener'n hell,' "-New York Sun.

UNION'S CENTENNIAL.

THE COLLEGE AT SCHENECTADY WILL DE 100 YEARS OLD NEXT JUNE.

The Alumni Propose to Celebrate the Occasion In Fitting Style-An Educational Institution With a Great Record-It Was Founded by a Lottery.

Union college, Schenectady, whose alumni will celebrate its centennial at commencement time next June with great enthusiasm, has an extraordinary record as an educational institution.

It was the second college incorporated within the boundaries of the Empire State; it was one of the first, while not departing from its high standard of classical instruction, to develop scientific instruction; it was the first to establish as a separate course a department of civil engineering; it was the first nondenominational college in the United States, though recognizing as fully as any other the value of religion; it has never been hostile to athletics, but it has avoided participation in the ultra madness of devotion to football that has caused so much discussion concerning other colleges, and it was one of the first of the higher institutions of learning to do away with hazing.

These things all tend to give Union an individuality of its own, but they are by no means the only facts in its history

PRESIDENT RATMOND.

that are of interest. Union was founded from a fund raised by lottery, though that fact has been forgotten doubtless by a large part of the public, but in this it is not alone, for a writer who flourished in 1845 said in the course of an article apon lotteries that there were then "but three universities in the whole country that were not founded by lottery speculation-Harvard, Yale and William and Mary, Virginia.

It was at Union that most of the college secret savieties originated—so many of them having been founded there, in fact, as to cause Union to be termed the "mother of the Greek letter society." It was r' Union, too, that the college ver-ion of "The Promised Land." a spiritual song in the first instance, was first sang, and it was an early president of the institution. Dr. Eliphalet Nott, who abashed and punished in most effective style some students caught in the act of robbing his chicken coop by asking the delinements to dinner with him the next day and feeding them on the chickens which they had killed, albeit the story has been told on several other promi-

nent educationalists. This Dr. Eliphalet Nott was a great man in his day. Before he accepted the post of Union's chief executive he was pastor of a Presbyterian church in Albany. In 1804, just after the duel between Burr and Hamilton, in which the latter lost his life, Dr. Nott delivered a remarkable sermon upon that event. This discourse speedily made the young divine famous, and its ability drew to him the attention of Union's trustees.

Dr. Nott served as president of Union for the remarkable term of 62 years, and so completely was the institution recust during his long administration that it has been spoken of as his monument. Besides being an eloquent preacher, a profound scholar and a teacher of remarkable clearness he was a good deal of a politician, and it was no doubt due as much to his ability in this direction as in the others that he was able to make his administration of the affairs of Union such a conspicuous success. He was also a practical scientist, and it was his inventive ability that gave to the world the baseburning heater stove and caused the cities of Albany and Troy to become the center of the stove manufacturing industry in America. Dr. Nott died in 1866 and was suc-

ceeded by Dr. Laurens P. Hickok, who had been vice president. Two years later he retired, to be followed by Dr. C. A. A. Aiken, who also retired after two years. Dr. Eliphalet Nott Potter, a grandson of Dr. Nott, followed, but soon resigned to take the presidency of an other college. He was followed by Professor Harrison E. Webster, whose health gave out last year, when the present incumbent of Union's presidency, Dr. Andrew V. V. Raymond, was chosen. Dr. Raymond is but two or three years over 40 and is therefore in the prime of life. Himself a gradnate of Union, having been graduated in 1875 with high Lonors, he has always been sincerely devoted to the famous old college's best interests. In 1878 he entered the ministry, becoming pastor of one of the Congregational churches of Plainfield, N. J. He also preached at New Brunswick, N. J., for some time, and five years ago was made pastor of the Fourth Presbyterian church at Albany, where he continued till chesen to fill the place at Union once occupied by Dr. Nott.

He received the degree of D. D. in 1886, but he attained another sort of bonor, one that endears him to all athletic college students, some years earlier than that, while he was still an undergraduate. This honor was won on the baseball diamond, where during a game in which he took part, he established a record for long distance batting that has probably never been surpassed, certainly not by any college player.

Fatal Earthquakes in Italy.

FLORENCE, May 20 .- The earthquake which occurred here Saturday evening has proved more serious than it seemed at first. Thousands of people spent Saturday night in the streets, and a second shock at 11 o'clock at night intensified a thousand fold the first aiarm. Similar events occurred at Baris, near here. The casualties there included four deaths and many injured. Numbers of houses were also badly cracked. Other villages in the vicinity suffered still worse damage. At Grassina forty houses were wrecked. At Lapaggi several buildings fell and three persons were entombed. The church at San Martino was destroyed while full of worshipers, several persons being crushed to death, and many who were wounded

are still in the ruins. The villages of Gallezzo and Gambino were badly damaged. Recovered \$1,200 for Fatal Injuries.

HARRISBURG, May 2). - In February, 1894, as a meery sleighing party from this city was returning home, on their way through Steelton a car of the Citizens line struck the sleigh and overturned it. Several of the party were injured, and one of them. William Mehaffie, died sometime afterward. It was claimed that his death resulted from his injuries, and his father brought suit against the Citizens' company for \$10.00) damages. The jury Saturday night brought in a verdict of \$1,200 for the father.

Urging Archbishop Kenrick's Removal. St. Louis, May 29.—Prominent Catholic clargymen and laymen are plaintiffs in a sait filed in the circuit court against the venerable Archbishop Kenrick by priests of his diocese and laymen to divest him of all title and control in the valuable church property of the archdiocese of St. Louis held by him in fee. The petition avers that the defendant is 89 years old and so weak in mind as to be unable to perform the duties of his office. The prayer for the appointment for another trustee is only a request that the law transfer the diocesan property to coadjutor Archbishop Kain.

Patal Wreck on the Jersey Central.

BOUND BROOK, N. J., May 20.-There was a fatal accident on the Central Railroad of New Jersey near the station at this place. A coal and a freight train were wrecked and Harry Buck, of the fast Philadelphia and Reading freight train, was instantly killed. The fireman was badly bruised and the conductor of the coal train was cut and scalded.

Alleged Train Robbers Arrested. CRIPPLE CREEK, Colo., May 20 .- Sherman Crumley, "Kid" Wellace and Sam Wilder have been arrested on warrants charging them with participating in the Florence and Cripple Creek train robbery last March. Deputy United States marshals and the Denver and Rio Grande express detectives claim to have positive evidence of the prisoners' guilt.

NO ACTUAL RESURRECTION.

Rev. Dr. Newton's Unorthodox Statement May Cause His Trial For Heresy.

"I believe in the resurrection of the body," says the creed of the Protestant Episcopal church. 'I do not believe the resurrection of Jesus Christ means the rising again from the tomb of the actual body laid away there," says Rev. Dr. R. Heber Newton, one of the best known clergymen of the church, and a heresy trial is among the possible consequences of that declaration. In thus discarding the accepted Christian belief in the actual resurrection of the body of Jesus, Dr. Newton caused widespread comment among the clergy of his church, and Bishop Potter of New York will be called upon to decide whether or not there is enough evidence of ancanonical practices to justify arraigning Dr. Newton before the proper tribunal on the charge of heresy.

Dr. Newton was born in Philadelphia Oct. 31, 1840, and was educated at the university of Pennsylvania and at the Episcopal Divinity' school in Philadel-

REV. DR. R. HEBER NEWTON.

He was ordained a priest in St. Paul's church, Philadelphia, in 1866, and in 1869 removed to New York as rector of the Anthon Memorial church, which is now called All Souls' church. During his pastorate of a quarter of a century he has battled for advanced thought, and his forcible, erudite and eloquent sermons have drawn about him a congregation numbering among its members many of the most prominent and wealthy residents of New York. He has become widely known on account of his radical and somewhat unorthodox views on religion and has been severely censured by his brother elergymen. Two years ago a heresy investigation committee was appointed to examine his utterances, and this committee will now consider his statement that he does not believe in the actual resurrection of Christ.

L R NICKINSON,	EUSINESS IIIA VAGRI

MONDAY, MAY 20, 1895.

The Salem Wire Nail Company and the Findley Company have advanced the wages of their 6 000 employes ten per cent. The Democratic tariff isn't a bad thing for the working-

A Democratic legislature with a Democratic governor produced a tax rate of 137. A Republican legislature with a Republican governor makes it 3 24. No comment is necessary.-Binghamton Leader.

The health authorities of Akron, O., have traced thirty cases of diphtheria, three of the u fatal, to a dog, owned by the milkman who supplied the families in which the cases of the disease occurred. The dog had been suffering from lumps in its throat and a cough and local physicians have no doubt that it was suffering from diphtheria.

Three negroes, who waylaid a white girl near Madison, Fla, carried her into a swamp, kept her there for a day and night and, after repeatedly assaulting her, finally killed her, were skinned alive and then roasted to death by righteously indignant white men. It's all right to protest against lynch law in the abstract, but in this case every right minded man must feel a sense of satisfaction that the lynchers took the law in their own hands. The penalti-s provided by law for such a crime as these negro brutes committed are en tirely inadequate, and only the wild justice of revenge could inflict a punishment that fitted the crime.

As required by the iniquitous apportionment article of the new constitution, the Board of Supervisors will meet at Goshen, June 11th, to divide the county into two Assembly districts. The Republican bosses have been figuring for some time on a new division of the county, which will make both districts reliably Republican. One plan, which meets with favor, i to transfer Montgomery from the first to the second district, and it is claimed that Mont gomery's Republican majority is big enough and sure enough to keep the district in the Republican column. Others, who believe in making a surance doubly sure, think it would be well to pile Blooming Grove on top of Montgomery, and thus make a Republican majority in the second district that the Democrats could not possibly escape. There are other plans, but one of those we have indi cated is likely to be adopted, al though it is understood that Montgomery Republicans with legislative aspirations object to being taken out of the first di-trict. This much is certain, that the Republican majority in the Board of Supervisors will do whatever the party bosses decree shall be done, and it is equally certain that the bosses will decree that every possible partisan advantage be taken in dividing the county.

Thousands of cases of rheumatism have been cured by Hood's Sarsaparilla This is abundant reason for belief that it will cure you.

Facts Worth Knowing

In all diseases of the nasal mucous membrane the remedy used must be non-irritating. Nothing satisfactory can be accomplished with douches, shuff, powders or astringents, because they are irritating, do not thoroughly reach the affected surfaces and should be abandoned as worse than failures. A multitude of persons who had for years borne all the worry and pain that catarrh can inflict testify to radical and permanent cures wrought by Lly's Cream Balm. Your druggist has it.

INCOME TAX UNCONSTITUTIONAL

The Supreme Court Decides Against the Law - The Yote 5 to 4 - The Court's Conclusions.

BY UNITED PRESS.

WASHINGTON, May 20-Th - Supreme Court has declared the income tax unconstitutional,

Upon the question of the general unconstitutionality of the law the court is understood to have been divided as follows: against the law-Justices Fuller, Field, Gray, Brower and Shiras; for the law-Justices Harlar, Brown, Jackson and White. The Chief Justice announced the

following conclusions: First-We adhere to the opinion already announced that taxes on real ture with a Democratic governor estate being indi-putably direct made it 2.18. A Republican legisla. | taxes, taxes on rents or the income

of real estate are equally direct taxes. Second-We are of the opinion that taxes on personal property or on the income of personal property are likewise direct taxes.

Third-The tax imposed by sections 27 to 37 inclusive of act of '94, so far as it falls on the income of real estate and personal property being a tax within the meaning of the constitution is therefore unconstitutional and void, because not apportioned according to representation, [and all those sections constituting the entire scheme of taxation are necessarily invalid. The decrees hereinbefore entered in this court will be vacated, decrees below will be reversed, and cases remanded with instructions to grant the relief prayed for &

SUNDAY AT MIDWAY PARK.

Crowds of Visitors-The Roller Coaster and Other Amusements.

Seven cars were run between this city and Midway Park, yesterday afterncon, and they were heavily loaded on every trip, hundreds of people visiting the Park. The cars from Goshen were also loaded.

The roller coaster was in operation and was a most popular feature. Cars were dispatched from the tower as frequently as was consistent with safety, but not frequently enough to satisfy he crowd, who were anxious

to take the ride. All the boats were in use during the afternoon, and those who are ton tof rowing, and who were disappointed in their expectation of securing boats, will be glad when the new boats ordered by the company which controls the boating privilege are received.

Bachman's canteen, near the lagoon, was open, yesterday afternoon, and seemed to erjoy a liberal patron-

"Little Corey Island" was also open and a good many dimes were given up by those who thought they could "ring" a knife or a cane, but, needless to say, very few knives or canes were given up by the owners of the "Island."

Mrs. Ann Schoonmaker Gray.

Mrs. Ann Schoonmaker Gray, widow of the late Wm. R. Gray, died at her home on Monhagen avenue at 8.30 o'clock, this morning, of general debility, in her eight; -third year.

She had been failing for the past five years and has been confined to her bed most of the time since last February.

Mrs. Gray was born in the town of Shawangunk, Ulster county. She was the last of a family of eight children.

She was married June 29, 1833 to William R. Gray and resided in Shawangunk until 1854, when she removed with her husband to Ellenville. In 1873 they came to Middletowr, where she has since resided. Her husband died August 10, 1894.

Mrs. Gray was the mother of five children, only one of whom, Annie, wife of Mr. C. N. Predmore, survives

For the last fifty years of her life she was a church member and since she came to Middletown has been a consistent member of the First Congregational Church.

The funeral will be held at her late residence on Monhagen avenue at 4 p. m., to-morrow. The body will be taken to Ellenville on Wednesday morning and will be buried beside that of her husband in the Ellenville cemetery.

Eliza Swartwout Tillman.

Mrs. Eliza Swartwout Tillman. wife of James M. Tillman, of Huguenot, died May 17th, aged seventyone years and eight months. She was the daughter of Grandess Swartwout and Maulia Whited, and is the last of twelve children. She was married to Benjamin F. Hornbeck, of Ulster county, in 1842, by whom she had six children: Sarah J., w'fe of D. P. Schultz, of Tri-States; Jas. G. and Geo. W., of Port Jervis; The ese, wife of Geo. F. Edgecomb, of Connersville; Fred. Ingersol, deceased, of Texas, and Aaron J., of Middletown, In 1856 she was married to James M. Tillman, of Sussex county, N. J, by whom she had two children: Mary, wife of H. N. Hanford, of Waverly, N. Y., and Della, wife of Elsie Hunt, of New York city.

Mrs, Tillman was a member of the M. E Church. She was baptized at New Vernon when sixteen years old She was a descendant of the original settlers of the valley along the Nev ersink, where she has always lived. She could remember some of the colored people who were slaves in the Swartwout family. She thoroughly hated the institution of slavery and during the Rebellion she sent three sons and a son-in-law and husband to the war, and seemed only to regret that she had not more to send. She was a good mother, a generous neighbor and her death is regretted by many.

Funeral services were held at her late residen e, Sunday, at 3 o'clock. The interment was in Laurel Grove

Cemetery, Port Jervis, Sudden Death in Port Jervis,

Luther R. Beckwith, sixty-five years old, chief plumber of the Delaware Division of the Erie, fell dead in his home in Port Jervis, this morning. He had not been feeling well for several days, but his condi tion was not thought serious.

A Barn Burned Near Westtown.

The cow barn on the farm of Ben amin F. Dunning, a mile west of Westtown, was destroyed by fire, between 8 and 9 o'clock, Saturday night. Mr. Dunning lives in Port Jervis and the farm is unoccupied, though George Sparling lives in the farm house. There was a quantity of hay in the burned building. Nothing is known as to the origin of the fire, which is supposed, however, to have been the work of an incendiary.

THE DRIVER MAD A MATCH.

Several of Them. A prosperous looking business man boarded the front platform of a crosstown car, and drawing a well filled eigar case from his pocket selected a choice looking Havana. The driver "sized up" the man and the eight case, and his mouth began to water. The smoker, after biting off the end of his eigar, began fumbling for a match. Failing to find

him if he had a match. "Yes, sir," responded the driver, with alacrity. "Here you are, sir." "Thank you," said the business man, lighting his eigar and sending the fra-

one, he turned to the driver and asked

grant smoke wafting across the driver's "Very convenient to have matches around, sir. I allers makes a point of

carrying 'em." "Indeed?" "Yes; so many gentlemen pull out a cigar, and then find they ain't got a

Puff, puff and silence. "I am quite a smoker myself. 'Course I can't smoke on the car, but then I enjoy it all the more when I get off."
"I suppose so," said the smoker ab-

sentmindedly. "Many gentlemen makes a point of giving me a cigar, especially when they rides reg'lar. I ain't had my after dui-

ner smoke yet." "Oh," said the business man in a preoccupied manner.

"Yes, sir; I allers earry matches, as I said before, cause when a gentleman has a eight and no light he allus seems so thankful for it. Generally gives me a cigar too. Seems kinder fair to exchange a cigar for a match, 'cause the weed ain't no good without a light."

"Ah," said the smoker, evidently busy in his mind with something connected with business.

The driver looked despairingly at him and after clearing his throat said: "You don't happen to have another

cigar in your pecket, do you, sir?" "Certainly I have-two or three," said the business man testily. "But what has that to do with what you have been talking about?"

The rest of the journey was made in silence.—New York Tribune.

SONG EIRDS.

Something About the Feathered Warblers of Different Countries.

India has the jocose bulbuls, often called nightingales from their remarkably sweet voices. The Hindoos train them to sit on their hands and be carried about the bazaars. The black faced thrush is a very fine sougster and can imitate almost everything he hears.

The white eyebrowed or spectacled laughing thrush has a loud, powerful song and some meledious notes. He is sometimes called the greater Peking nightingale or Japanese mocking bird.

The Japanese robin is a pretty bird to look at, and very lively in his motions, but is overrated as a singer, his notes resembling our Baltimore oriole's, only shriller, with little variation.

Australia has the piging crow, which is more of a shrike than a true crow. His song is rich and varied, the notes resembling a flute. He can be taught t speak and innuate many birds as well.

From Africa are shipp d large numpers of little birds to this country called African singing finches. The plumage is handsome and often very odd. They lack voice, only one, the strawborry finch, having a song of any power. They are cuming, however, and pretty to have in an aviary. A gentleman in New York has an aviary cage containing some 35 varieties of small birds, and among them many African finches. As one of the canaries sings a small finch will fly to his side, and placing his head against the singer's breast listen closely until the canary drives him away.

A weaver bird with a thick red bill, in this same happy family, will take all the threads given him and weave a close network down the side of the cage and out on the perches. His ewner says that if he would give him enough material the bird would wrave until he shut out the daylight -Philadelphia Times.

Wonders of Minute Animal Life. The following, which neight very appropriately bear the heading of "A Wonder of Wonders," is from the pen of Sir Robert S. Ball, F. R. S., astronomer royal of Ireland: "The microscope teaches us that there are animals so wonderfully minute that if a thousand of them were ranked abreast they could easily swim, without being thrown ont of order, through the eye of the finest cambric needle ever made. Yet each of the numbe creatures is a highly organized number of particles, capable of moving about, of finding and devouring food and of behaving in all respects as beromes an animal as distinguished from a fragment of innorganized matter." THE DRUGS AND MEDICINES. CAREFUL ATTENDED CIVAT TO COMPOUNDING PASSOCIPTIONS

STORIES OF THE DAY. An Oregon Parmer Thinks He Has Two

Great Anks on His Farm. According to a Tillamook county Or) tarmer, the species of sea bird known as the great auk is not extinct. He declares that two birds of this family, presumably a male and female, have been roo, ting in a very large spruce tree near his place for several months. By the aid of a field; lass the settler, who is a naturalist of local renown, has, he claims, identified them beyond doubt as fine specimens of the great auk family.

From their actions the settler believes they will remain in his neighborhood and possibly raise a broad of young ones in the spring. He is encouraging them to stay by giving them access to his wheatfields, where they feed every day after the manner of goese.

It is highly improbable that the birds visiting the Tillamook farmer are great auks. The famous bird, before its generally credited extinction, was found only in the norm stern part of this continent and it neithern Emope. The fact that they have once their nests in a sprace true is at a count the farmer's theory. The great auk's wings are so small as to be totally useless for flying, serving, Lowever, as powerful swimming ergans. It was because of the bird's mability to rise on wing to the higher cliffs that it laid its eggfor it laid but one at a time-on the bare rock close to the water's edge.

The auk's swimming powers were so great that very lew indeed have ever been captured alive.

Should the Triliamook farmer's birds prove to be great auks he will be well repaid for any theable or expense in the way of the destruction of his wheatheld.

One of the 65 eggs now known to be in existence was sold recently in England for \$1,530 in gold. A this rate one of the great auk family would be even more valuable than the goose which haid the golden egg .- New York World.

Mexico's Big Fair.

A great int mational exposition of industries and fine arts, authorized by the federal government of Mexico, by concession dated Jan. 9, will be inaugurated in the Cry of Mexico on the 2d of April, 1596, and will remain open for a period of at least six mouths. This will be Mexico's first exposition.

The exposition is to include all kinds of

industrial, scientific, commercial and artistic productions, and to embrace, in fact, the whole range of human activity. The exposition grounds are situated at the foot of the custle of Chapultepec, on the grand Avenue de la Reforma, within ten minutes ride from the center of the City of Mexico, and

comprise an area of about 600 acres.
It is intended to divide the ground into three large courts—namely, Grand court, Mexican National court and the Foreign count. At the main entrance of the Grand court is to be creeted the statue of G neral Diaz, prosident of the Mexican republic: in the center is to be located an electrical exhibit whose beautifully colored and ever changing lights

will illumine the grounds. In the rear of this court are to be found the electrical fountain and cascades. At the fear corners it is intended to place different attractions, such as a sceme rallway, a captive balloon, an Indian village and an old Mexican mining camp. The walks will be lined with palm and orange trees. - Chicago Times-Herald.

Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd. cures Diarrhea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend-

Castoria.

*Castoria is an excellent medicine for chilåren. Mothers have repeatedly told me of its good effect upon their children."

Da. G. C. Oscood, Lowell, Mass.

Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphice, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHELOZ, Conway, Ark. |

Castoria.

* Castoria & so well adapted to children that I recommend it as superior to any prescription known to me."

· H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y

"Our physicians in the children's depart ment have spoken highly of their exper-ence in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

It is Injurious To Stop Suddeniy

And dou't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about "BACO-CURO." It is purely vegetable. You do not have to stop using tobacco with "BACO-CURO." It will notity you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded.

Eureka Chemical & Mfg. Co., La Crosse, Wis. Dear Sirs—I have been a tooacco hend for many years, and during the past two years have smoked fitteen to twenty chart regidarly every day. My whole nervous system became affected, until my physician told he I must give up the use of tobacco for the time being at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I needentally learned of your "Baco-Curo," Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every invenente smoker fally appreciates, has compacily left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

TO WHOM IT WAY CONCERN.

This is to certify that I, William S, Sawyer of Ariantic County of Cass. State of lown, having been an interrite smoker of tobacco, bought three Loxes of "Baco-Curo" Dec. 21, bought three Loxes of "Baco-Curo" Dec. 21, 1891. Began taking same according to directions and can say that I am completely cured of the tobacco habit "Baco-Curo" is simply wonderful and I recommend at to all who are slaves to the tobacco habit and wish to be cured. I am in perfect health and buve not felt, so well in years. That terrible craving, which every tobacco user has more or less, has completely disappeared and I feel like a new man. Hoping that this may do some one good and lead them to try this wonderful remedy, "Baco-Curo," I remain, Yours truly, WM. S. SAWYER, Atlantic, Iowa.

Gentlemen—For forty years I used tobacco
in all its forms. For twenty-five years of that
time I was a great sufferer from general debiity and heart disease. For fitner, years I tried
to quit, but couldn't. I took various remedies,
among others "No-Too-Bue," "The Indiar Tobacco Antidote." "Double Chloride of Gold."
etc., etc., but none of them did me the lenst bit
of good. Finally, however. I purchased a box
of your "Baco-Curo" and it has entirely cured
me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains
of body and mind. I could write a quire of paper upon my changed feelings and condition.

SAXS OF "BACO-CURO."

WHAT MR. KRAEMER SAYS OF "BACO-CURO."

ATLANTIC, Iowa, Feb. 4, 1895.
This is to certify that I. F. D. Kraemer, of Atlantic, Iowa, was an inveterate smoker of

cigarettes for more than two years.

About eight weeks ago I bou, it three boxes of "Baco-Curo" I began taking it according to directions, and after taking one and one-half boxes, all the desire for eigarettes left me, and I

have had no desire since.

I can heartly recommend "Baco-Curo" to all who are slives to the cigarette habit or tobacco habit in any form, and are in search of a cure. I had become so under the influence of cigarettes. I could not remember anything; could not study, unless under the influence of the drug, which is death in the end, if kept up.

Cigarettes are sapping the lives out of more boys and young men to-day, than anything that is known to the world. Boys, before it is too late get some of this remedy that killed the eraying for eigerettes in me and save your young life. Restore yourself to manhood. You will feel as though you had escaped an awful doom, and you have, when cured by "Baco-Curo," for you feel like a new being. I never felt better in all my life than at this present writing. I did not know what was the matter with me, until informed by the agent. He told me what was the reason beould not do anything unless under the influence of the death-dealing poison found in cigarettes. I did not believe him at first, until he explained the action on the system. There would not believe him at first, until he explained the action on the system. THE REMOVAL OF NAPOLEON'S CODY TO ITS LAST RESTING PLACE.

Wonderful Preservation Through Nineteen Years' Luterment-Spectators Moved to Tears-impressive Ceremonies at the Church of the Invalides.

The grave in the valley of Napoleon, on St. Eclena, as the place had come to be called, was surrounded by an iron railing set in a heavy stone carb. Over the grave was a covering of 6 inch stone which admitted to a vault 11 feet deep, 8 feet long and 4 feet 8 inches broad and was apparently filled with earth, but digging down some seven feet a layer of Roman cenent was found. This broken laid bare a layer of rough hewn stone 10 inches thick and fastened together by iron clamps. It took 4% hours to remove this layer. The stone up, the slab forming the lid of the interior surcephagus was exposed, inclosed in a border of Roman cement strongly attached to the walls of the vanir. So stoutly had all these various coverings been sealed with cement and bound by iron bands that it took the large party of workers ten hours to reach the coffin.

"The outermost coffin was slightly injured," says an eyewitness. "Then came one of lead, which was in good condition and inclosed two others—one of tin and one of wood. The last coffin was lined inside with white satin, which, having become detached by the effect of time had fallen upon the body and enveloped it like a winding sheet and had become slightly attached to it.

"It is difficult to describe with what anxiety and emotion those who were present waited for the moment which was to expose to them all that was left of the Emperor Napoleon. Notwithstanding the singular state of preservation of the tomb and coffins, we could scarcely hope to find anything but some misshapen remains of the least perishable part of the costume to evidence the identity of the body. But when Dr. Guillard raised the sheet of satin, an indescribable feeling of surprise and affection was expressed by the spectators, many of whom burst into tears. The emperor himself was before their eyes. The features of the face, though changed, were perfectly recognized; the hands extremely beautiful; his well known costume had suffered but little, and the colors were easily distinguished. The atcitude itself was full of ease, and but for the fragments of satin lining which covered, as with fine ganze, several parts of the uniform, we might have believed we still saw Napoleon lying on his bed of state."

The climax of the pageant in Paris was the temple of the Invalides. The spacious church was draped in the most magnificent and lavish fashion and adorned with a perfect bewilderment of imperial emblems. The light was shut out by hangings of violet velvet; tripods blazing with colored flames, and thousands upon thou-ands of waxen candles in brilliant candelabra lighted the temple. Under the dome, in the place of the altar, stood the catafalque which was to receive the coffin.

It was 3 o'clock in the afternoon when the archbishop of Paris, preceded by a splendid cross bearer, and followed by 16 incense boys and long rows of white clad priests, left the church to meet the procession. They returned soon. Following them was the Prince de Joinville and a select few from the grand cortege without. In their midst Napoleon's cof-

The king descended from his throne and advanced to meet the cortege. "Sire," said the Prince de Joinville. "I present to you the body of Napoleon. which, in accordance with your commands, I have brought back to France.

"I receive it in the name of France,"

replied Lauis Philippe.

Such at least is what the "Moniteur" affirms was said. The Prince de Joinville gives a different version: "It appears that a lattle speech which I was to have delivered when I met my father, and also the answer he was to give me. had been drawn up in council, only the authorities had omitted to inform me concerning it. So when I arrived I simply saluted with my sword, and then stood aside. I saw indeed that this silent | N salute, fellowed by retreat, had thrown something out, but my father, after a moment's hesitation, improvised some appropriate sentence, and the matter was afterward arranged in the 'Moniteur.

Beside the king stood an officer, bearing a cushion. On it lay the sword of A Austerlitz Marshal Soult handed it to the king, who, turning to Bertrand,

"General, I commission you to place the enperor's glorious sword on the bier.

And Bertraid, trembling with emotion, kild the sword reverently on his idol's cofilm. The great audience watched the seene in deepest silence. The only sound which broke the st lines was the half stified; hs of the gray haired soldiers of the healides, who stood in places of honor near the catafalque.

The king and the procession returned to their polices, and then followed a majestic farerol mass.—Ida II. Tarbell in McClure's Magazine.

. THE GREAT REPUBLIC " MATINEE.

Better Than the Previous Perform. ances-Mixed Their Clothing Up.

There was a large audience, composed mostly of ladies and children, at the Casino, Saturday afternoon, to see the final performance of "The Great Republic." There was a marked improvement over the preceding performances and the play passed off very amoothly.

There was considerable confusion among the children behind the scenes, and several articles of clothing were mislaid or exchanged. A son of Policeman Wilson lost a coat, which he would be very thankful to have returned.

#### A Doctor's Experience

Dr. H. B. Hettinger, Indianapolis, ind., says: "For several months after spraining my ankle I was severely afflicted with Rheumatism. I finally tried Detchon's 'Mystic Cure' for rheumatism, and in four days could walk without my cane; two bottles cured me sound and well. I take great pleasurs in recommending the 'Mystic Cure' to all who are afflicted with rheumatism. Sold dy J. E Mille, druggist, Middletown, N. Y.

KITTENS IN A SAND BOX.

A Mother Cet selects a Poor Home for Her Family-Seventeen Hours on the Clectric Road.

The Traction Company has for some time had car No 9 jacked up in the power house with the intention of putting the trucks under another car, but it was found necessary to use the car, yesterday, to accommodate the extra travel, and it was hastily placed upon the trucks and run out upon the line.

While standing in the power house the seats were thrown back, which left the top of the sand box open.

A cat which makes its home at the power house took possession of the sand box and proceeded to rear a family of kittens, the family consisting of four very pretty little fellows only a few days old.

Yesterday, when the car was run out the mother cat was on a mousing expedition, and when the seats were turned down the kittens were not observed.

The car was out on the line seventeen hours, and when it came in the auxious mother was waiting for it. She didn't make any mistake in the car either, but jumped aboard No. 9, and when the seats were thrown back sprang into the sand box, and in an instant appeared carrying one of her kits by the neck.

An examination of the box was made, and it was found that one of the kitters had died, but the others were all right.

The cat and her family have been provided with luxurious quarters in the power house.

THE DELAWARE VALLEY RAILROAD.

hy Capt, Rockwell Has Abandoned the Enterprise

Capt. Rockwell has abandoned, for the present at least, all idea of doing anything with the D laware Valley Ballroad project. He found that the enterprise had been very badly "hoodoced," attempts having been made by its former projectors to float its securities at almost any price and on almost any terms. He would not, however, have given up the attempt to build the road had it not been for a decision of the Pennsylvania Supreme Court in a Pennsylvania railroad case that a road built under a steam road charter cannot be operated by electricity. Uatil the laws of the State are changed it will not te possible to do anything with the Delaware Valley road, for electric roads, built as such, cannot carry freight in that State, and without freight there would be no possibility of making the road profitable.
